

# The Ultimate Collection of Open Source Software for Mac OS X v2.0

Over 650 Megabytes of installers on a single cd ready to install

## Audio

### Audacity

Simple sound recording tool.

### Juice

Solid podcasting client.

### Senuti

Get music off of your iPod onto any computer.

## Games

### Aleph One

Engine for Bungie's free FPS series Marathon. Play online, solo play with rich original story, many total conversions and thousands of maps. Includes Marathon, Marathon 2 & Marathon Infinity

### Armagetron Advanced

3D Tron game.

### BZFlag

First-person tank game.

### Zombies

3D zombie strategy game.

## Graphics

### Seashore

Graphic Editor based on Gimp, but doesn't require X11.

### Xee

Fast image viewer and image browser.

## Internet

### Adium

Connect to multiple IM accounts simultaneously in a single app, including: AOL IM, MSN, and Jabber.

### Colloquy

Great IRC client.

### Cyberduck

Very good all-around ftp program.

### Mozilla Firefox

The premier free, open-source browser. Tabs, pop-up blocking, themes, and extensions. Considered by many to be the world's best browser.

### Mozilla Thunderbird

Powerful spam filtering, solid interface, and all the features you need.

### Transmission

Very nice torrent downloader.

### Vienna

Very nice, native RSS client.

## Office Productivity

### AbiWord

A word processor. Leaner and quicker than OpenOffice. Compatible with Microsoft Word documents & OpenDocument Format.

### Bean

Very fast and easy to use word processor. Live word count, autosaving, more.

### Buddi

A personal finance and budgeting program, aimed at those who have little or no financial background.

### Cashbox

Simple, easy to use application for managing personal finances.

### ODF Viewer

Open Document viewing application:

### Smultron

Text / html editor. Integrates with Cyberduck for editing websites.

## Utilities

### Burn

CD and DVD Burner.

### ClamXav

Virus checker

### Q Emulator

Run Windows programs on your Intel Mac at near native speed. Works on G4 / G5 Macs too, but much slower.

## Video

### Handbrake

DVD ripper and MPEG-4 / H.264 encoding. Very simple to use.

### Miro

Beautiful interface. Plays any video type (much more than QuickTime). Subscribe to video RSS, download, and watch all in one. Torrent support. Search and download from YouTube and others.

### MPlayer

The interface and buttons are not as nice or as Mac-like in feel, but it may play even more video files than VLC.

### Perian

A plugin that allows QuickTime to play additional video formats. (Included in Democracy Player.)

### VLC

Plays more video files than most players: QuickTime, AVI, DIVX, OGG, and more. Pretty good interface.

*Note: The applications supplied on this CD are supplied as is. For system requirements and installation instructions, please read the appropriate Readme or website*
